(Pre-order by October 11 for delivery in early November)

The 2021 edition of *The Prairie Garden* focuses on flowering shrubs and the queen of flowering shrubs, roses. Hundreds of exciting new flowering shrub cultivars have emerged over the last few years, many of them well suited to prairie gardens. Since our *Roses* edition in 2008, important new hardy roses have come on the market. With Dr. Philip Ronald of Jeffries Nurseries as our guest editor, we take a fresh look at these useful and beautiful plants.

Guest editor Dr. Philip Ronald was raised in the Canadian prairies and educated in plant breeding and horticulture at the University of Manitoba and the University of Saskatchewan. He currently divides his time between teaching ornamental horticulture at the U of M, managing Riverbend Orchards and providing support to the research and marketing programs at Jeffries Nurseries.
